Introduction and Overview

T. M. Moore, Principal
Welcome
The Christian understands that all of life is spiritual. We are made in the image of God, live in a world filled with unseen creatures, serve a God Who rules over all things from His heavenly throne, and know that we are called to make every moment count for the progress of a Kingdom not of this world.

Introduction to Spiritual Theology is designed to help you gain a better overall understanding of the Christian life, and develop a more fruitful approach to realizing more of the presence, promise, and power of the Kingdom of God.

This Introduction and Overview explains the content of our course and how to proceed through it. Please be sure to read this Introduction and Overview carefully before beginning your course.

Course Goals
As in all the courses in our Laddership Curriculum, our goal is to encourage and lead you into greater love for God and your neighbors.

Love for God is the motivating force for spiritual life. As we grow to know Him better, we will love Him more
deeply and obey Him more consistently. Consequently, He will manifest Himself to us and through us in all the daily details of our lives.

As we grow in our love for God, we will grow to see our neighbors as He does and to serve as effective channels of His grace to them, so that they experience His love through us.

Our goals for this course derive from these two overarching objectives:

1. To lead students to adopt a Kingdom approach to life, that is, to embrace a way of living each day that allows maximum involvement with Jesus Christ and the resources He has provided for full and abundant life;
2. To equip students to live as channels of grace and truth to the people and culture of their lives, such that Jesus Christ ministers His love through them with greater consistence and effects.

All of life is spiritual, and the more of God’s vision, presence, and power we bring into our daily lives, the more we will realize His glorious purpose for us as His people and children.
